## HELP OUR YOGA YEJNA !

" MAHARSHI KAVI YOGI SHUDDHANANDA BHARATI is a rare gem of India, a versatile genius, a saint and seer poet. Worship, meditation, song offering and company of saints were the inborn traits of his life. The Grace-Light descended into him and enabled him to live a God-Conscious life right from his childhood. He lived in close contact with great saints and Yogins like Ramana Maharshi and Sri Aurobindo. By years of silent Samadhi he developed tremendous Yogic force "

*(Swami Sivananda)*

The Yogi's Silent life is a Lab of inner experiments. Shuddhananda's Sama-Yoga accords purity, unity and divinity to aspiring seekers. There are fifty volumes on Yoga. Are there not fifty benign souls in this sacred India to print each a book and enlighten humanity? Help our YOGA YEJNA...AUM JAYA AUM.
