A Laboratory Manual for Trainees in **Heat Treatment**

V. M. ZUYEV

Translated from the Russian
by

Boris V. KUZNETSOV

Mir Publishers • Moscow

Contents

	Page
Laboratory Project No. 1 Determining the Hardness of Metals	7
Laboratory Project No. 2 Macroscopic Examination of Steel	16
Laboratory Project No. 3 Determining the Critical Points of Sn-Zn Alloys	23
Laboratory Project No. 4 Determining the Grain Size of Steel	26
Laboratory Project No. 5 Microscopic Examination of Carbon Steel and White Cast Iron at Equilibrium	30
Laboratory Project No. 6 Determining the Effect of Annealing and Normalizing on the Microstructure of Carbon Steel	35
Laboratory Project No. 7 Determining the Effect of Heating for Hardening on the Microstructure and Hardness of Carbon Steel	45
Laboratory Project No. 8 Determining the Effect of the Quenching Rate on the Microstructure and Hardness of Carbon Steel	50
Laboratory Project No. 9 Determining the Effect of Tempering Temperature on the Microstructure and Hardness of Quenched Steel	55
Laboratory Project No. 10 Determining the Effect of Heat Treatment on the Microstructure and Hardness of Cast Iron	58
Laboratory Project No. 11 Determining the Effect of Induction Hardening on the Microstructure, Hardness and Hardness Penetration of 0.45% Carbon Steel	63
Laboratory Project No. 12 Microscopic Examination and Measurement of the Hardness and Depth of Case of Carburized Steel	67
Laboratory Project No. 13 Microscopic Examination and Determination of the Depth of Case in Nitrided Steel	70
	5

Laboratory Project No. 14 Determining the Effect of Heat Treatment on the Microstructure and Hardness of Structural Alloy Steel	74
Laboratory Project No. 15 Microscopic Examination of Tool Steels	79
Laboratory Project No. 16 Determining the Effect of Heat Treatment on the Microstructure and Hardness of High-Speed Steel	83
Laboratory Project No. 17 Microscopic Examination of Heat-Resistant, Stainless and High-Temperature Steels and Alloys	88
Laboratory Project No. 18 Microscopic Examination of Nonferrous Alloys	93
Laboratory Project No. 19 Quality Control of Simple Heat-Treated Parts	100
