## TALK ! TALK! TALK!

Join us in the glittering world of Synthetic Gemstones  
and

Together we will do something about it!

The global market for synthetic gemstones is about Rs.300 crores and it is estimated that it will touch Rs.720 crores by 1995. The Diamond & Gem Development Corporation (DGDC), a promotional organization, plans to secure 33% of the share of world market for India by 1995, which is at present less than 1%.

### INTERESTED?

DGDC will provide integrated support right from training to processing of loans to supply erection & commissioning of machinery, raw material supplies to marketing support for finished goods.

Don't miss this opportunity to join in our efforts, besides being your own boss.

For a sparkling future
