

THE HIPPIES

A SIGNET NOVEL - TAMM-3-56

BURTON H. WOLFE

"GOD IS THE FATHER OF MY CHILD,"

The teen-age girl told police...

Drugs, disease, delirium—a hard but sympathetic look at the Hippie scene; its beginnings in the post-Korean War San Francisco experiment, and the flower children who have been routed by the onslaught of hepatitis, gonorrhea, flu, and, worst of all, the widespread psychosis induced by mind-blowing drugs.
