The **easy** way of getting things done...

Do you need more cupboards and shelves? Is your car in need of simple maintenance? Have you a child who would love a new toy?

You could do these things for yourself, simply and inexpensively, with the help of EASY magazine — the do-it-yourself weekly for young husbands and wives.

Take a look at EASY this week. You'll be inspired by its cleverly designed furniture and ideas — and probably amazed at how easy it can be to make them for yourself.

And just think how proud you'll be as you tell admiring friends and neighbours: 'We made it ourselves.' (They may not know how EASY it can be.)
