analog computation and simulation

v. rajaraman ph.d.

professor of electrical engineering &
computer sciences,
indian institute of technology, kharagpur

Prentice-Hall of India (Private) Limited

New Delhi - 110001

1980

V. RAJARAMAN

VP & Associate Professor of Electrical Engineering and Computer Science,
Indian Institute of Technology, Kharpur.

President - Inst. Pakistan of Sciences, Karachi, U.S.A., 1981-82.

- Visiting Assistant Professor of Electrical Engineering and Computer
Sciences, University of California, Berkeley, 1983-84.

- Visiting Fellow, IBM Systems Development Institute, Chennai,
Australia, 1972-73.

SOME REVIEWS OF THE FIRST EDITION

"This publication certainly has worked hard to give the reader a glimpse of
the excitement and the state of the art of a very exciting discipline and research."

Newsletter - Computer Society of India, 1979

"This book provides a good introduction to analogue computers and a valuable
first trial of many more of modern computers in the field."

"The entire book should provide an understanding of students with a good background of
analogue computing and a clear and good reference book for early postgraduate
study where most students require to use analogue computers to solve their
complex systems problems from their industry."

Computer Society, British Computer Society, 1980
