'Immensely moving and unsettling; an unforgettable portrait of the brain-death of a nation.'

J.G. BALLARD, *Sunday Times*

'*Wild Swans* is a very unusual masterpiece. Everything about it is extraordinary. Not only has it been a popular bestseller, because it is impossible to put down; it has also received the most serious critical attention. The book arouses all the emotions, such as pity and terror, that great tragedy is supposed to evoke, and also a complex mixture of admiration, despair and delight at seeing a luminous intelligence directed at the heart of darkness.'

MINETTE MARRIN, *Sunday Telegraph*

'Mesmerising. Like all great stories of survival, no matter what tragedies and horrors are encountered along the way, *Wild Swans* is ultimately an uplifting book: it is the courage and spirit of this family which will, I believe, be my abiding impression (even if memories of the horrors endured will take a long time to fade).'

ANTONIA FRASER, *The Times*

'Of all the personal histories to have emerged out of China's twentieth-century nightmare, *Wild Swans* is the most deeply thoughtful and the most heart-rending I've read. It moves, in part, like a ghastly oriental fairytale, but the authority and the reticent passion with which Jung Chang speaks her memories – and those of others – is unmistakable.'
