ROTARY CLUB OF BANGALORE

Work can be one of life's most rewarding experiences. A job can offer pride in achievement and an opportunity for individual growth, as well as the security of an adequate income. Satisfying employment is not a matter of accident or good luck but a result of adequate informed career planning.

This handbook attempts to provoke thoughts such as: What does a person actually do on the job; what abilities and interests does the job call for; what kind of training is required for the job; what are the working conditions like; and most important, what will be the job opportunities in coming years?

By acquiring a broad knowledge of choices available, youngsters are likely to be in a better position to make intelligent career plans. Such knowledge is also useful for persons embarking on careers at different stages of their lives.

*The main purpose of this book is "to expose to the students, who have completed or have nearly completed high school education, the opportunities of being employed, or of being self-employed in careers that would dignify them."*

This book has been made possible by the co-operation extended by Vijaya Bank Ltd, Canara Bank, The Karnataka State Government's Directorate of Employment & Training, hundreds of people who were interviewed for their views on employment and Self-employment and the active Participation of Bangalore Rotarians.

Copies can be had from any branch of  
Canara Bank and Vijaya Bank Ltd.
