THE OBSERVER'S BOOK OF MODERN ART

'This pocket book which is illustrated with 16 small but well produced colour plates and 48 in monochrome, has besides the main text, biographical notes on 125 artists

mentioned in the survey, and a glossary of terms invaluable to anyone not familiar with the many "isms" applied to the various schools of contemporary art At least one copy of this book should be in every school library as an essential companion to Mr Gaunt's previous volume *Painting and Graphic Art* in the Observer's Pocket Book series, for no one can claim an understanding of art if they choose to ignore that being produced in their own time.' *Times Educational Supplement*

THE OBSERVER'S BOOK OF PAINTING AND GRAPHIC ART

A survey of the whole field of painting and the allied arts from earliest times. A special feature is the biographical index of great artists and their major works. Details are given of National Schools and a chapter on general appreciation. There are 16 colour plates and 48 half-tone illustrations.
