### *About The Book*

These stories constitute one of the richest cultural treasures of Tamil Nad. There is not a Tamil home where they are unknown.

Till at least a generation ago, every adult member stole delight in reading them and the children in listening to them when the grandmother either put them to bed or coaxed them with an additional morsel of food.

They recapture the wit, wisdom and wile of the people on the one side and the adventure of the human spirit on the other.

Handed down from generation to generation mostly by word of mouth, they have assumed a status next only to the *Ramayana* and the *Mahabharata* and have few equals in entertaining the lay mind. Presented here for the first time in English, they are set to entertain a much larger world now.
