15	Snow Queen: Film-star among Cows	176
16	Talking to your own Animals	180

# TALKING TO ANIMALS

Barbara Woodhouse is a very unusual animal lover. She has trained thirteen thousand dogs and written very successful books about them. She has tamed unbroken horses in the Argentine, and she has run a farm and subsequently a riding school.

Her life has been, and still is, an immensely eventful one, and this account of it, with its emphasis on the great variety of domestic animals she has owned and trained, will be a delight to all animal lovers as well as those who like to read about adventure and enterprise.
