THE MOTHER

# Stories told by the Mother

## 1

These stories are not just tales, they are realizations being freely shared to us by the Mother. As you know, one of them, the section have been called from the "Circles and Ashrams", the English translation of Sri Theosophical Society.

These stories were first published in French in 1934 under the title "Les Contes de la Mère". Now, at the beginning of a new millennium, we are happy to publish an English version of them. If they bring the reader closer to the Mother, the language will be well served.

With love and gratitude heral are happy to see you and all going - we offer this work as her free.
