Divine Rays	127
Divine Energy	131
Epilogue	136

---

Man acquires a taste for many different experiences. These tastes become deep impressions called vasanas. These vasanas are feelings that affect our words, thoughts, deeds and the world.

"Our feelings become thoughts, thoughts become speech. These conversations fill the Space. Ordinary people have thousands of feelings that fill the space and pollute it. The words spoken during our conversations clear this pollution. This is a thought war. It is in this way the world changes."
