

About thirty years ago the first catalogue we edited contained very few pages. Nowadays diamond trade and industry comprise a wide range of technical instruments and tools that increased extremely last years.

These specialised instruments now became indispensable to each diamond dealer and jeweller.

Since several years we are maintaining the first place to closely follow all development of the new instruments. — In this newest edition of our catalogue you will find, besides the wellknown articles, plenty of interesting new items generally distributed by us as sole agent.

The name Rubin and Son is a notion for each diamond dealer and jeweller and we are proud to be the only one that offers you such a variety of items.

We split up our new catalogue into five parts :

Part 1. Tools and supplies for the diamond trade - all items for the office and the store.

Part 2. The complete range of the newest Mettler Scales. — We proudly present them as we became recognized dealer of the worldknow Mettler Company.

Part 3. How Gem Diamonds are fashioned - a short explanation on how diamonds are sawed, cut and polished.

Part 4. Machinery and tools for the diamond Industry - we show all the machines and accessories for your diamond factory.

Part 5. Courses organized with our machinery and tools in our new school at Antwerp.

Your mail orders will have our very best attention and will be executed within a short time.

Do we hear soon from you ?
