IX. <i>Belief Makes Things Happen</i>	166

Whether you want an increased income, a new home, a better job, a happier marriage, or simply a good night's sleep... this book tells you how.

In *The Magic of Believing* you will see how to tap a vast reservoir of mental power that can direct you to the things you want. Written by a hardheaded businessman who saw these methods work for himself and hundreds of other successful men, this book shows you:

- **HOW you become what you contemplate**
- **WHY hard work alone will not bring success**
- **HOW to bring the subconscious into practical action through a process of making mental pictures**
- **HOW to use "the law of suggestion" on yourself, so as to step up your effectiveness in everything you do**
- **HOW to apply the power of your imagination to find ways and means of overcoming obstacles**
- **HOW to use "the mirror technique" for releasing the forces of the subconscious**
- **HOW to project your thoughts and turn them into achievements**
- **HOW belief makes things happen**

By harnessing the unlimited energies of your subconscious mind, it is possible to make yourself more competent in your affairs, more influential in your dealings with others—in short, more successful in life.
